Subject: RE: Lindsey Lake Daily Updates - 2/24 & 2/27

---

Hi Steve:

Thanks, really appreciating these updates. Can we break soil out separately and report by weight since we're almost done with the snow? Can add a line with data that reflects the tons of soil already removed, broken out by day. Also, can we add a line that shows how much soiled sorbent/boom was disposed of on each day? The soil and sorbent data can both be pulled directly from the waste tracking spreadsheet. Would just be good to have all the data in one place.

Thanks,  
Jamie
